

Pro Laptop 15 User Manual & Technical Specs

Document ID: HW-MNL-PL15-REV_B | Category: Electronics Support | Publisher: TechDistributor Support

1. Hardware Specifications

The Pro Laptop 15 is a high-performance workspace laptop engineered for software development and multitasking. It features an Intel Core i7-13700H (14 cores, up to 5.0 GHz) or AMD Ryzen 7 7840HS processor, 16GB LPDDR5 RAM (dual-channel), a 512GB PCIe Gen 4 NVMe SSD, and a 15.6-inch IPS screen with a 2560x1440 resolution (16:10 aspect ratio, 400 nits brightness).

2. Port Layout & Connectivity

The chassis is equipped with several premium connectivity options to eliminate dongle requirements: - Left Side: 1x USB-C Thunderbolt 4 port (supports Power Delivery up to 100W and DisplayPort 1.4 output), 1x HDMI 2.1 port, and 1x USB 3.2 Gen 2 Type-A port. - Right Side: 1x USB-C 3.2 port, 1x SD Card Reader, and 1x 3.5mm headphone/microphone audio combo jack. - Wireless: Integrated Wi-Fi 6E (802.11ax) and Bluetooth 5.3 module.

3. Troubleshooting Instructions

If the Pro Laptop 15 does not boot, perform the following hardware reset process: 1. Disconnect all external devices and unplug the charging cable. 2. Hold down the physical Power Button for exactly 15 seconds. 3. Release the power button, plug in the original AC power adapter, and wait 30 seconds. 4. Press the Power Button once. The laptop screen should boot into the bios splash screen within 10 seconds.

4. Warranty and Enterprise Support

All hardware items distributed through SmartERP vendor lists carry a ****1-year manufacturer warranty**** covering parts and labor. The warranty does not cover liquid damage or physical chassis impact. For assistance or device swap requests, contact the service desk at ****support@smarterp.com**** or open a hardware assistance ticket in the IT portal.
